The Washkewicz College of Engineering continues to experience growth and expansion. Our student population has increased significantly over the last few years, and we are expanding our College into a new building by December 2017. We now have the need for additional faculty.

**Electrical Engineering and Computer Science Positions Available:**
The Department of Electrical Engineering and Computer Science at Cleveland State University invites applications for one tenure-track Assistant Professor position in Computer Science. We are also seeking two non-tenure track Assistant College Lecturer or Assistant Professor of Practice positions in all areas of Computer Science and Engineering and one non-tenure track Assistant College Lecturer or Assistant Professor of Practice positions in all areas of Electrical Engineering.

For more detailed information regarding these positions, please visit: www.csuohio.edu/eecs.

**Tenure-Track Assistant Professor Positions:**
1. **Position Description:** The successful candidate will be expected to develop a strong, externally funded research program, supervise students, and actively participate in teaching at both the graduate and undergraduate levels. Candidates in all areas of Computer Science will be considered, though the department is particularly interested in areas of Programming Languages, Software Engineering, Cybersecurity, Health Informatics, High-Performance Computing, and Mobile Computing. We are particularly interested in candidates who value cross-disciplinary and collaborative research. Applications will be exclusively accepted online at http://hrjobs.csuohio.edu/postings/6891.

   **Qualifications:** Applicants must possess an earned Doctoral degree in Computer Science or a closely related field by the time of employment. Preference will be given to candidate who has the ability to contribute to the diversity, cultural sensitivity, and excellence of the academic community.

   Inquiries can be directed to Professor Nigamanth Sridhar, Chair of the search committee at n.sridhar1@csuohio.edu.

**Assistant College Lecturer or Assistant Professor of Practice Positions:**
1. **Computer Science and Engineering Positions (2 positions) Description:** Successful candidates are expected to demonstrate a passion for teaching. The candidate will be expected to teach computer science and engineering courses. Candidates in all areas of Computer Science and Engineering will be considered, though the department is particularly interested in areas of Programming Languages, Software Engineering, Cybersecurity, Health Informatics, High-Performance Computing, and Mobile Computing. Applications will be exclusively accepted online at http://hrjobs.csuohio.edu/postings/7225.

   **Qualifications:** Applicants must hold Master’s degrees in Computer science, Software engineering, Computer engineering or a related field. Appointment as Assistant Professor of Practice requires 10 years of professional experience. Successful candidates are expected to demonstrate a passion for teaching.

   Inquiries can be directed to Professor Nigamanth Sridhar, Chair of the search committee at n.sridhar1@csuohio.edu.

2. **Electrical Engineering Position Description:** Successful candidates are expected to demonstrate a passion for teaching. The candidate will be required to teach electrical engineering courses, including Freshman Design and Senior Design. Applications will be exclusively accepted online at http://hrjobs.csuohio.edu/postings/7093.

   **Qualifications:** Applicants must hold Doctoral degree in Electrical engineering, Computer engineering or a closely related field. Appointment as Assistant Professor of Practice requires 10 years of professional experience. Successful candidates are expected to demonstrate a passion for teaching.

   Inquiries can be directed to Professor Murad Hizlan, Chair of the search committee at m.hizlan@csuohio.edu.
Cleveland State University is searching for active, culturally and academically diverse faculty of the highest caliber. A 9-month contract will be offered at a competitive salary, commencing August 21, 2017. The salary for all positions is commensurate with background and experience. Start-up funds are available for the tenure-track Assistant Professor positions only.

For consideration, candidates must submit a cover letter, curriculum vitae (including names of at least three professional references), and a statement of interests in teaching, through the Human Resources website: http://hrjobs.csuohio.edu/postings/. The positions will remain open until filled.

Hiring is contingent on maintaining existing levels of funding from the State. Offer of employment is contingent on satisfactory completion of the University’s verification of credentials and other information required by law and/or University policies or practices, including but not limited to a criminal background check.

About the department: The Electrical Engineering and Computer Science Department provides a rigorous education in the principles of electrical engineering, computer engineering, and computer science and supplemented by practical experience and communication skills to transform students into well-rounded and competent, ready to go engineers. It offers doctoral, master’s and ABET-accredited bachelor’s degrees, with over 500 bachelor’s students, over 400 master’s and doctoral students, 25 full-time faculty members, and over $8 million in research funding. To learn more information about these positions and the Electrical Engineering and Computer Science Department please visit: www.csuohio.edu/eecs.

About the College: The Washkewicz College of Engineering offers Bachelor’s, Master’s, and Doctor of Engineering degrees in several engineering fields. All undergraduate programs are ABET accredited. The Washkewicz College of Engineering traces its roots back to 1923 as Fenn College and has since maintained its reputation for excellence in engineering education and research. The college was renamed in 2013 to Washkewicz College of Engineering in honor of the transformative gift from Donald and Pamela Washkewicz and the Parker Hannifin Foundation. Also, due to these gifts, we have begun construction on a new engineering building to be completed December 2017.

About the University: The Cleveland State University is a state-assisted metropolitan university in the city of Cleveland with approximately 17,000 students. The university is well-known for its interdisciplinary programs, enjoying partnerships with several industrial corporations and the NASA Glenn Research Center. The Chronicle of Higher Education (The Almanac 2015-2016) recognizes CSU as #1 in the nation for the greatest percentage increase in total research funding, #1 in the nation for the greatest percentage increase in federal research funding, and #12 in the nation for the greatest percentage increase in corporate research funding.

It is the policy of Cleveland State University to provide equal opportunity to all qualified applicants and employees without regard to race, color, religion, sex, sexual orientation, gender identity and/or expression, national origin, age, protected veteran or disable status, or genetic information.
