THE NSLC ON ENGINEERING IS LOOKING FOR TEAM ADVISORS FOR SUMMER 2017.

National Student Leadership Conference on Engineering
Since 1989, thousands of outstanding high school students have attended the NSLC to explore today’s most exciting careers, develop essential leadership skills, and experience life on a college campus. The NSLC on Engineering is a 9-day conference providing talented high school students from around the world with hands on engineering experience, opportunities to meet working professionals, and visits to engineering facilities. Under the guidance of their Team Advisors, these students will explore various fields in engineering, learn important concepts such as concept generation and technical writing, and participate in a variety of engineering build projects.

The Role of the Team Advisor
Team Advisors (TAs) act as facilitators, presenters, simulation monitors, and resident advisors. The job of a TA encompasses the role of a chaperone, teacher, mentor, and policy enforcer. As a TA, you will facilitate and supervise a group of 12-16 students. Many TAs will also lead activities, simulations, and lectures attended by all students. Working with your TA group is an amazing experience as you watch your students make friends for life and experience the world of engineering in a personal way. This is a unique opportunity to serve as a mentor and role model for talented young students and share your passion for and knowledge of engineering. Team Advisors arrive on-site 3-4 days before students arrive in order to participate in orientation and training and stay for at least two 9-day sessions in New Haven, Washington, D.C., Chicago, Atlanta, Houston, or San Francisco.

Requirements for Employment
Team Advisors must be current college students with a background and interest in some discipline of engineering. The most qualified candidates will have participated in leadership programs, workshops, or classes and will have experience working at summer camps or with high school students in a position of leadership. The NSLC is looking for TAs who are interested in and have experience in a variety of fields including, but not limited to, mechanical engineering, chemical engineering, computer science, bio-engineering and civil engineering.

Dates & Compensation
Team Advisors will be paid $765 at the end of each session. The NSLC also pays for room & board, meals, and transportation to and from the conference. For more information and to apply, visit www.nslcleaders.org/jobs. Applications are now being accepted. If you have any questions about the position or application, feel free to contact Melanie Kliegel at melanie.kliegel@nslcleaders.org.

In 2017, the NSLC on Engineering will be held on the campuses of the following universities:

New Haven, CT
Yale University
June 18 – June 26
July 1 – July 9
July 13 – July 21
July 25 – August 2

Washington, D.C.
American University
June 25 – July 3
July 7 – July 15
July 19 – July 27

San Francisco, CA
University of California, Berkeley
June 19 – June 27
July 1 – July 9
July 13 – July 21
July 25 – August 2

Chicago, IL
Northwestern University
June 25 – July 3
July 8 – July 16
July 21 – July 29

Atlanta, GA
Georgia Tech
June 19 – June 27
July 1 – July 9

Houston, TX
Rice University
June 23 – July 1
July 5 – July 13
