Major Offered At:

CORVALLIS

**Southwestern Oregon
Community College**

Mechanical Engineering

Mechanical engineers design, develop, and improve devices, products, processes, and systems. As a ME student, you'll take classes in mathematics, science, computer science, and design. As a mechanical engineer, the types of projects you can work on are endless. At Oregon State, ME areas of focus include design, materials, mechanics, dynamics and controls, and thermal-fluid sciences.

Examples of what ME engineers can do:

- Build satellites, rockets, & autonomous vehicles
- Design miniature heat pumps for use in protective clothing
- Develop new materials for medical products & sports equipment
- Design wind turbines, photovoltaic panels, & other renewable energy systems
- Design cook stoves for low resource environments

Your Bachelor's Degree (BS) in the College of Engineering

- A minimum of 180 credits are required for graduation; 60 must be upper division (300 and 400-level courses).
- A maximum of 135 credits earned at a community college may be applied toward a bachelor's degree at OSU.
- Some courses can count towards your major and the Baccalaureate Core. Advisors can assist in selection.
