June 19 to August 25, 2023

Oregon State University is excited to announce summer in-person internships for undergraduate students interested in hands-on and interdisciplinary research on how the field of engineering can contribute towards building resilient communities. The Engineering for Bouncing Back (EBB) program will award approximately 10 fellowships of **$6,000 per student, along with travel and subsistence support**, to support participation in research projects. During the ten-week program, students will work with a faculty mentor and graduate student on a specific project and will develop research skills to increase graduate school opportunities.

- $6,000 fellowship
- Field trips for site-specific field work
- Workshops for professional skills development
