

Nordica A. MacCarty, Ph.D.
Associate Professor of Mechanical Engineering
School of Mechanical, Industrial, and Manufacturing Engineering
Oregon State University
204 Rogers Hall
Corvallis, OR 97331
Nordica.MacCarty@oregonstate.edu

EDUCATION

- Ph.D. Mechanical Engineering (GPA 4.0/4.0), Iowa State University, 2015
Dissertation: “Development and use of an integrated systems model to design technology strategies for energy services in rural developing communities”
Advisor: Dr. Kenneth Mark Bryden
- M.S. Mechanical Engineering (GPA 4.0/4.0), Iowa State University, 2013
Thesis: “A zonal model to aid in the design of household biomass cookstoves”
Advisor: Dr. Kenneth Mark Bryden
- B.S. Mechanical Engineering, minor in Business Administration (GPA core 3.78/4.0), Iowa State University, 2000

ACADEMIC EXPERIENCE

Associate Professor, Mechanical Engineering, Oregon State University, 2021- present
Richard & Gretchen Evans Professor of Humanitarian Engineering, 2024-present
Richard & Gretchen Evans Scholar of Humanitarian Engineering, 2020-2024
Erskine Fellow, University of Canterbury, Christchurch, New Zealand, 2024
Assistant Professor, Mechanical Engineering, Oregon State University, 2015-2021
National Science Foundation Graduate Research Fellow, Iowa State University, 2010-2015
National Merit Scholar, Iowa State University, 1996-2000

OTHER PROFESSIONAL EXPERIENCE

Executive Director, Aprovecho Research Center, 2021-present
Laboratory Manager and International Consultant, Aprovecho Research Center, Cottage Grove OR, 2004–2010
Undergraduate Research Assistant, Ames Laboratory Center for Nondestructive Evaluation, Ames IA, 1999-2000
Technical Assistant, Wandling Engineering, P.C., Ames IA, 1999-2000
Corporate Engineering Intern, 3M Abrasive Systems Division, Ames IA, 1997-1999

HONORS and AWARDS

Richard & Gretchen Evans Scholar of Humanitarian Engineering, 2024-present
Richard & Gretchen Evans Scholar of Humanitarian Engineering, 2020-2024

DOE 5th Wood Heater Design Challenge, 2nd place, 2023
Best Paper Award, ASME IDETC 2023
Distinguished Alumni Award, The Marshall School, Duluth Minnesota, October 2023
ASME iSHOW Finalist, 2022
US DOE Wood Heater Design Challenge Finalist, 2022
Oregon State University International Service Award, 2020
Impact Invention Award, Elevating Impact Summit, Portland Oregon, February 2017
National Science Foundation Graduate Research Fellowship, 2010-2015
National Merit Scholar, full merit scholarship to Iowa State University, 1996-2000

KEYNOTE and INVITED TALKS

MacCarty, N. Invited Talk. Advances in Biomass Cooking and Heating Using Forced Draft Combustion. International Cooperation Forum on Clean Cooking and Heating with Biomass. Beijing University of Chemical Technology, Beijing China. October 2023.

MacCarty, N., Kilkenny K. Optimizing Cordwood Heater Design based on User Research. US EPA's National Residential Wood Smoke Training Workshop, Denver, CO April 10-13 2023.

MacCarty, N. Invited Talk, "Direct Fuel Consumption Monitoring" Better data, lower costs: can advances in field monitoring deliver? Session, Clean Cooking Alliance Forum, October 2022, Accra, Ghana

MacCarty, N. Invited Talk, "Advancing Innovative Impact Monitoring: the Fuel Usage Emissions Logger (FUEL)" Perspectives on Innovation: Measuring & Monetizing Impacts session at the Clean Cooking Alliance Forum, October 2022, Accra, Ghana

Invited talk, "Humanitarian Engineering Innovation at Oregon State", Professional Engineers of Oregon monthly meeting, Portland, Oregon. February 4th, 2020.

Invited talk, "Sensor-based impact monitoring with the FUEL sensors", Clean Cooking Alliance Forum session on What's Cooking: Opportunities for Innovative Growth Across the Sector panel. Nairobi, Kenya. November 5th-7th, 2019.

Invited talk, "OSU Humanitarian Engineering Program", Global Engineering Education Exchange conference, Cleveland OH, May 22-24, 2019.

Invited talk, "Humanitarian Engineering Innovation at Oregon State", Willamette Innovators Network PubTalk, Corvallis, Oregon July 9th, 2019.

Invited talk, "Ethnography in Engineering Design", ASME IDETC Engineering for Global Development Forum, Lightning talk and panel, August 27, 2018, Quebec City, Quebec.

Keynote, "Engineering for Global Good" OSU SWE Tea, Family weekend, Corvallis Oregon, May 2018.

Keynote, "Humanitarian Science and Engineering: Changing Lives and Improving the World with a STEM Degree", Oregon State University Seniors Exploring Engineering Day for the Programs for Women and Science in Engineering and LSAMP Bridge, Corvallis, Oregon, January 2016.

Invited Talk, "Proposed Benchmarks for Biomass Cookstoves," U.S. EPA Partnership for Clean Indoor Air Coordination and Partner Preparation Meeting, Bonn, Germany, October 2006.

Invited Talk, “Proposed Benchmarks for Improved Cooking Stoves,” International Meeting on Indoor Air Pollution, Fuel-Efficiency Stoves and Sustainable Development, Brasilia, Brazil, October 2006.

ACADEMIC AREAS OF SPECIALIZATION

Despite significant scientific and engineering advances in the 21st century, nearly 40% of the world’s population continues to have their most basic needs for energy, water, and livelihoods unmet. My goals are to integrate modern engineering tools with understanding from the social, environmental, and economic sciences to develop effective and appropriate solutions to meet these needs while providing students the opportunities to develop both their technical skillsets and cross-cultural understanding to help bridge the gap between design and reality.

Research Interests

My primary research interest is in the use of sensing, computational modeling, and interdisciplinary approaches to assist design and decision making in complex systems to meet basic human needs. My work in this area includes

- Development and commercialization of tools and systems to help cleantech and development projects to understand if their interventions are working through independent, inexpensive, external validation.
- Design and analysis of heat transfer and combustion in the small energy systems, including solar and biomass powered devices such as clean cooking and heating stoves, solar water heaters, and thermoelectric generators.

Research Awards and Funding

US Environmental Protection Agency, Climate Vulnerability Assessment Tool with the Tribal Healthy Homes Network, my share **\$142,856**

US Department of Energy Biomass Energy Technology Office, Development of Forced-Air Combustion Systems with Automated Controls to Reduce Emissions from Cordwood Room Heaters in Everyday Use, PI, September 2022-2025, **\$2,500,000**

US Environmental Protection Agency, Phase 1 P3 Awards: People, Prosperity and the Planet, Cleaner Cordwood Heating Technology for Tribal Communities: Needs Assessment and Preliminary Design, PI, March 2022-March 2023 **\$25,000**

CQuest Capital, Study for Baseline Efficiency of Traditional Cooking in Ghana, Malawi, and Kenya, 2023-2024, **\$40,000**

CQuest Capital, Study for Baseline Efficiency of Charcoal Conversion Efficiency in Ghana and Malawi, 2023-2024, **\$60,000**

CQuest Capital, In-Field evaluation of the Jet-Flame Cooking System in Malawi, 2021-2022, **\$30,000**

Two Venturewell Faculty Development Grant, 2018 and 2021, **\$30,000 and \$30,000**

Four VentureWell Student Entrepreneurial Team Stage 1 Support Grants, 2017, 2017, 2018, 2022, **\$5,000, \$5,000, \$5,000, \$5,000**

Two VentureWell Student Entrepreneurial Team Stage 2 Support Grants, Spring 2018 and 2023, **\$20,000 and \$20,000**

Swigert Foundation, Web-based Analytics Development for the Fuel Usage Electronic Logger (FUEL), PI, 2017, 2020 and 2022, **\$7,000, \$10,000 and \$10,000**

Clean Cooking Alliance, Characterizing stove use, fuel consumption, and emissions patterns in Haiti: An integrated field study, with Berkeley Air Monitoring Group and University of Colorado – Boulder, June 2019, **\$1,035,557** (my portion \$85,000)

OSU Venture Development Fund, Hardware Upgrades for the FUEL System, Winter 2018, **\$5,000**

National Science Foundation, I-corps: The Fuel, Usage, and Emissions Logger (FUEL) for energy efficient technology adoption and impact monitoring, PI, October 2017, **\$50,000**

National Science Foundation, Engineering Systems Design: Novel Framework for Incorporating Consumer Preferences and Public Goals into Engineering Design Applied to Energy Technologies, PI, May 2017, **\$348,000**

MIME Strategic Innovation Grant, FUEL Sensor development, PI, Winter 2017, **\$10,000**

National Science Foundation Graduate Research Fellowship, 2010-2013. **\$95,000 plus \$31,500** cost of education allowance.

Teaching Interests

My background is in thermal-fluid sciences, engineering design, computational modeling and optimization. I particularly enjoy teaching heat transfer, humanitarian engineering, and engineering orientation courses. In addition to the development of hands-on project opportunities at the undergraduate level, am interested in entrepreneurship, the design of energy systems for the developing world, and the use of engineering tools to address poverty and environmental issues in a multi-disciplinary context. I am also working to develop and lead interdisciplinary field courses and research experiences for undergraduate and graduate students.

Teaching Awards and Funding

VentureWell, Sustainable Design for Social Impact, June 2021-2024, PI, **\$30,000**

VentureWell Faculty Grant for sustainable design innovation entitled “Innovating for Sustainable Household Energy”, PI, July 2018-July 2021, **\$30,290**

OSU Scaled Learning Innovation Grant, Technology and Creativity for Enhancing COE Orientation Courses, co-PI with David Nembhard (PI) and Jennifer Parham-Mocello, Fall 2018, **\$97,000**

MIME Strategic Excellence Grant for Engineering Education, “Synthesis of Literature and Preliminary Study Design for Research in Humanitarian Engineering Education,” co-PI with Kendra Sharp, Summer 2018, **\$10,420**

OSU Women’s Giving Circle, MIME 101: Hands-On Creative Activities to Increase Retention of First Year Engineering Students, PI, **\$9,797**

Summer session grant to cover instructor travel expenses for HEST 299/599: Household Energy in Guatemala, Spring 2016, **\$3,000**

Teaching Experience:

PROGRAM DEVELOPMENT:

As director of the humanitarian engineering program at OSU, I am responsible for continuously updating and cultivating the curriculum and performing the assessments. In 2022, I led the creation of the undergraduate certificate and subsequent development of our portfolio of courses for the ecampus format. In 2024, I worked to ensure our curriculum remains relevant for the changing core education requirements.

NEW COURSE DEVELOPMENT:

Humanitarian Engineering, Science and Technology (HEST) 310: Introduction to Community Engagement and Community-Based Design. Spring 2024, ecampus. This course uses a fair-trade learning approach to encourage students to identify an organization in their community that they resonate with, and then reach out to complete three volunteer shifts interspersed with design visits during which they co-design solutions to challenges facing the organization. It provides structured activities to support this work while encouraging development of soft skills and interdisciplinary/interagency collaboration.

Humanitarian Engineering, Science and Technology (HEST)/ANTH 201: Innovation for Social Impact. Spring 2020. This course steps through the design process from exploration and ideation, to customer discovery, prototyping, testing, and all the way through to implementation as students consider the engineering, anthropological, and entrepreneurial methods of design in a term-long project of their choosing. It is cross-listed with anthropology recognizing the extensive social aspects involved in the innovation process. In 2022 it was also developed for ecampus.

Humanitarian Engineering, Science and Technology (HEST) 241/541 and 242/542: Household Energy in Guatemala: Technology, Environment, and Society. Spring and Summer 2016, 2018, 2020. This course introduces students to the technical, social, and environmental issues surrounding needs for household energy in developing countries and investigates a variety of technological solutions to meet those needs in both theory and practice. It begins with a 1-credit on-campus seminar to provide relevant background and research questions for the field, followed by a 12-day faculty-led study abroad experience where students will participate in co-design, cookstove manufacturing, distribution, monitoring and evaluation, and surveys in rural households in conjunction with ongoing projects by partner organizations StoveTeam International and Link4.

ENGR 100 – The Oregon State Engineering Student: Engineering for Global Sustainable Development. Fall 2021 and beyond. This course is an introductory orientation course for all incoming engineering students designed to introduce them to the various disciplines in engineering and skills (ethics, communication, time management) they will need to succeed as engineers. It consists of 2 lectures per week plus one two-hour studio. My section is focused on the use of engineering to meet basic needs for clean energy, water, transportation, habitat, and health technologies globally. Lectures and studios provide direct examples of engineering in these fields paired with hands-on experiences and a term-long project focused on a specific village globally.

EXISTING COURSES:

ME 332 – Heat Transfer, Oregon State University, Fall 2018, Spring 2020, Fall 21, 22 – full curriculum development.

ME 450/550 – Applied Heat Transfer, Oregon State University, Winter 2016-2023 – full curriculum development.

MIME 101 – Introduction to Mechanical, Industrial and Manufacturing Engineering, Oregon State University – co-instructor, significant contributions to content Fall 2015-2019. Secured two grants to re-create the labs with hands-on Lego and Cosmo robotics projects in 2018.

ME 220 – Globalization and Sustainability, Iowa State University, GTA Spring 2014.

Other Teaching Experience – For a period of 5 years I routinely taught technical classes on biomass cookstove design and cookstove testing protocols to diverse international audiences in groups up to 250 participants in both structured classroom and informal hands-on settings.

Student Mentoring

Ph.D. Students

Current:

David Evitt, anticipated 2026

Prabin Shrestha, anticipated 2026

Nathan Bolden, anticipated 2029

Graduated:

Mohammad Pakravan, “Design for Clean Technology Adoption: Application of Discrete Choice Analysis and the Theory of Planned Behavior for Development Engineering”, Ph.D. Mechanical Engineering with Economics Minor, March 2019

M.S. Students

Current:

Yupanki De La Cruz, anticipated 2026

Paula Coto, anticipated 2025

Jessie Urban, anticipated 2025

Graduated:

Kiernan Kilkenny, dual M.S.M.E. with Applied Anthropology, 2024

David Evitt, Mechanical Engineering, 2023

Grant Ross, Mechanical Engineering, 2022

Heather Miller, Mechanical Engineering, 2021

Liam Cassidy, Mechanical Engineering, 2020

Rajesh Oak, Mechanical Engineering, 2020 (M.Eng.)

Jennifer Ventrella, dual M.S.M.E. with Applied Anthropology, 2019

Nicholas Moses, dual M.S.M.E. with Applied Anthropology, 2018

Grace Burleson, dual M.S.M.E. with Applied Anthropology, 2018

Undergraduate Honors Students Mentoring/Committee

Current:

Jonah Wald, honors college undergraduate thesis advisor, mechanical engineering, anticipated June 2026

Graduated:

Ryan Schofield, honors college undergraduate thesis advisor, Mechanical Engineering, June 2024

Matthew Jou, honors college undergraduate thesis advisor, Mechanical Engineering, June 2021.

Marley Bennet, honors college undergraduate thesis advisor, Electrical Engineering and Computer Science, June, 2021.

Duncan O'Boyle, honors college undergraduate thesis advisor, Mechanical Engineering, March, 2019.

Connor Parrott, honors college undergraduate thesis advisor, Mechanical Engineering, 2016-2017. Thesis title: Flow Cytometry

Adrian Hinkle, honors college undergraduate thesis committee member, Mechanical Engineering, 2016-2017. Thesis title: Communication Strategies for Latin American Engineers Without Borders Programs

Grace Bureson, honors college undergraduate thesis co-advisor, Mechanical Engineering, 2015-2016. Thesis title: Water treatment technologies for the developing world

Undergraduate Students

Natalie Krempel, DOE cordwood heater project, AY24/25

Jonah Wald, DOE cordwood heater project, Fall-Winter 2024

Bianca Hansen, Piezoelectric research for humanitarian engineering, Fall 2022

Michael Laun, Honors College Center for the Humanities Summer Internships, Summer 2022

Kiernan Kilkenny, Hydrobee Research Project, Winter-Spring 2022

Bianca Hansen, Hydrobee Research Project, Winter-Spring 2022

Ava (Connor) Butler, MIME Research Experience for Undergraduates for clean water for low-income populations, 2018

Nicolene Van Rooyen, MIME Strategic Innovation Grant for combustion chamber material characterization, 2017-2018.

Elizabeth Andreyka, OSU URISC grant for water pasteurization system, 2017-2018.

Elizabeth Andreyka and Joshua Johnson, VentureWell Student E-Team for water pasteurization system, 2017.

Joshua Erkman, first-year undergraduate research mentor, Industrial Engineering: Undergraduate Research Scholarship, and the Arts Engage Fellowship for mentorship, 2016.

Senior Capstone Projects

Senior Mechanical Engineering Capstone Advisor: Wood Heater Heat Transfer Optimization for EPA: Paula Coto, Will Statler, Zach McDonough, Chris Mathis. 2023.

Senior Industrial Engineering Capstone Advisor: International Lifeline Fund Factory Optimization, co-advised by Dr. Hector Vergara. Madison Cooley, Sophia Torrez, Alexander Brown. 2023.

Senior Mechanical Engineering Capstone Advisor: Solar D.C.: Django Wiedel, Ian Shibley-Steir, Brooke Bouldin, Benjamin Nightingale. 2022-2023.

Senior Mechanical Engineering Capstone Advisor: Optimization and Manufacturing of a Water-cooled Thermoelectric Generator, sponsored by Firebee: Caleb Inman, Alan Danz, Jordan Strahl, Michael Diegel. 2020.

Senior Mechanical Engineering Capstone Advisor: Optimization and Manufacturing of a Water-cooled Thermoelectric Generator, sponsored by Firebee: Cooling Team Heather Miller, Gregory Scott, Alex Jeffs, Austin Leal; Heating Team: Brian Jones, Brian Cicerone, Logan Riemhofer, Joshua Holst. 2019

Senior Mechanical Engineering Capstone Project Advisor: Design of a chlorine concentration sensor for tracking efficacy of water chlorination systems in developing countries, sponsored by Green Empowerment: Victor Jonathan Oporta, Amer Abdulsalam Mahmoud Abdulla Almarzooqi, Nicholas Haupt, 2018.

Senior Mechanical Engineering Capstone Project Sponsor and Advisor: Design of a sensor-based monitoring kit for field research in humanitarian engineering: Judy Jiang, Hannah Mankle, Matthew Wiryawan, 2017-2018.

Senior Mechanical Engineering Capstone Project Sponsor and Advisor: Design of a thermoelectric generator for a biomass cookstove: Jeffrey Leslie, Edward Hynes, Faisal Alkhaldi, 2017

Senior Mechanical Engineering Capstone Project Advisor to flow cytometry group: Connor Parrott, Davis Raye, Tyler Vonderach, 2016-2017.

Senior Mechanical Engineering Capstone Project Advisor to three groups: Alexander Muschler, Barea Eraqi, Beau Hansen; Bryan Calidonna, Joe Van Kleek, Brendon Allen; Braulio Vasquez, Moayed Alhuwaikim, Mohamed Jarbooa, 2016

Service

Executive Director, Aprovecho Research Center, 2020-present.

Engineers in Technical Humanitarian Opportunities of Service (ETHOS), Member (2000-present), Board of Directors (2014-present), Treasurer (2016-present).

Verra Sustainable Development Advisory Group, 2021-present

Engineers Without Borders, Oregon State Chapter, Faculty Co-Advisor, 2018-present

Integrity Council for the Voluntary Carbon Market, Working Group 5. 2024.

Pi Tau Sigma, Mechanical Engineering Honor Society, Faculty Advisor, 2017-2024.

IEEE Special Interest Group on Humanitarian Technology (SIGHT) Group Founder and Faculty Leader, 2018-2019.

Grand Challenge Scholars Program Advisory Board, College of Engineering Leadership Program, December 2018-present.

Society of Women Engineers, Professional Development Planning Committee, November 2016-November 2017.

Green Empowerment, Technical Advisory Committee, September 2017-present.

Partners for Sustainable Schools, secretary of the Board of Directors and volunteer 2nd-5th grade classroom teacher, August 2013-August 2015.

Aprovecho Research Center, advisor and technical editor, August 2010-present.

Aprovecho Sustainability Educational Center, transition advisory board, 2018-2019.

TECHNICAL PUBLICATIONS

Bold font indicates the author was/is a student advisee. Mentoring advisees to become first authors is considered a measure of both research output and evidence of good mentorship in my field and at my institution.

RECENT TECHNICAL PRESENTATIONS

Conference and Technical Meeting Presentations (in addition to those above)

1. MacCarty N., Berger J., Bentson S., Thompson R. Invited Talk. Reducing Emissions from Residential Wood Combustion: Design Goals and In-Situ Measurements. EPA Office of Research and Development Seminar. Online. May 2024.
2. **Shrestha, P.**, David Blunck, Nordica MacCarty, David Evitt, Ajay Singh, Deepak Sharma, Mayowa Omisanya. Combustion Diagnostics in a Heating Stove. 9th Thermal and Fluids Engineering Conference (TFEC). April, 21-24, 2024. Oregon State University, Corvallis, OR.
3. MacCarty, N. Invited Talk. Emissions from Residential Wood Combustion: A Snapshot of Real-Time Monitoring in Rural Oregon. 2023 EPA International Emissions Inventory Conferences, Seattle, WA, September 28th, 2023.
4. MacCarty, N. Invited Panelist. The Role of Innovation in Higher Education. OSU Advantage Accelerator Accelebration, May, 2023.
5. MacCarty, N., **Kilkenny K.** Optimizing Cordwood Heater Design based on User Research. US EPA’s National Residential Wood Smoke Training Workshop, Denver, CO April 10-13 2023.
6. MacCarty, N. Reverse Innovation to Protect Health and Climate: Advances in Cleaner Biomass Combustion. College of Engineering Lecture Series. February, 2023.
7. MacCarty, N. Innovation for Social Impact: Scaffolding the Design Process in a New Course at Oregon State. Virtual OPEN 2021, March 17-19, 2021.
8. Innovator in Residence, Mountaintop Experience, Lehigh University, Virtual, June-August 2020.
9. MacCarty N. Invited talk, “Sensor-based impact monitoring with the FUEL sensors”, Clean Cooking Alliance Forum session on What’s Cooking: Opportunities for Innovative Growth Across the Sector panel. Nairobi, Kenya. November 5th-7th, 2019.

10. MacCarty N. Invited booth, “Sensor-based impact monitoring with the FUEL sensors”, Clean Cooking Alliance Forum 2019 booth in the Innovation Expo. Nairobi, Kenya. November 5th-7th, 2019.
11. **Burleson G**, Tilt B, Sharp K, MacCarty N. Incorporating rapid ethnography into engineering design: A field study of a water treatment system in Uganda. University of Michigan Sustainability and Development Conference. October 9-12, 2019.
12. MacCarty N. Invited talk, “OSU Humanitarian Engineering Program”, Global Engineering Education Exchange conference, Cleveland OH, May 22-24, 2019.
13. **Ventrella J., M. Pakravan**. FUEL: The Fuel, Usage, and Emissions Logger. Sensor Plenary Panel. OPEN Minds Showcase, Smithsonian Museum of Natural History. OPEN 2019 Washington D.C. March 27-30, 2019.
14. MacCarty N., O. Lefebvre. A modular system of wireless sensors for integrated assessment of cookstove usage, stacking, fuel consumption, air quality, and personal exposure. Engineers in Technical Humanitarian Opportunities of Service (ETHOS) Conference, January 2019, Kirkland, WA.
15. MacCarty N.. FUEL: The Fuel, Usage, and Emissions Logger. Sensor Plenary Panel. Engineers in Technical Humanitarian Opportunities of Service (ETHOS) Conference, January 2019, Kirkland, WA.
16. **Ventrella J.** and N. MacCarty. Design and field testing of an integrated sensor system to measure cookstove fuel consumption and usage. Engineers in Technical Humanitarian Opportunities of Service (ETHOS) Conference, January 2019, Kirkland, WA.
17. **M. Pakravan** and N. MacCarty. Integration of user behavior into cookstove design through utility functions and the Theory of Planned Behavior. Engineers in Technical Humanitarian Opportunities of Service (ETHOS) Conference, January 2019, Kirkland, WA.
18. C. Mays, **G. Burleson**, T. Navab-Daneshmand, K. Sharp, and N. MacCarty. “Microbiological Testing of a Community-Based , Biomass-Fueled Water Pasteurizer and Procedures for Cleaning Household Water Transport Containers” Water & Health Conference, North Carolina State University. Fall, 2018.
19. **G. Burleson**, T. Navab-Daneshmand, K. Sharp, and N. MacCarty. “Microbiological Testing of a Community-Based , Biomass-Fueled Water Pasteurizer and Procedures for Cleaning Household Water Transport Containers” Clean and Sustainable Water Technology Initiative workshop, Oregon State University. August 6-7, 2018.
20. **J. Ventrella** and N. MacCarty, “Low power sensor for direct measurement of cookstove and solid fuel use: field trial testing” Engineers in Technical Humanitarian Opportunities of Service (ETHOS) Conference, January 2018, Kirkland, WA.
21. **M. Pakravan** and N. MacCarty, “Use of behavior surveys to evaluate user decisions regarding cookstove adoption in Honduras and Uganda” Engineers in Technical Humanitarian Opportunities of Service (ETHOS) Conference, January 2018, Kirkland, WA.
22. **N. Moses** and N. MacCarty, “Understanding and Measuring Cookstove Usability” Engineers in Technical Humanitarian Opportunities of Service (ETHOS) Conference, January 2018, Kirkland, WA.
23. **G. Burleson** and N. MacCarty, “Evaluation of the InStove Water Purifier Using a Mixed Methods Approach” Engineers in Technical Humanitarian Opportunities of Service (ETHOS) Conference, January 2018, Kirkland, WA.

24. N. MacCarty, "Poster: High Efficiency Biomass Water Pasteurization" National Academies of Science, Engineering, and Medicine: Arab-American Frontiers Symposium, November 2017, Rabat, Morocco.
25. N. MacCarty, "Humanitarian Engineering at Oregon State." Presented at the 2017 HEARTH conference, Cottage Grove, OR August 2017.
26. N. MacCarty, "Engineering systems modeling and decision-based design tools and their applications for village energy," presented at the 2016 International Conference on Engineers in Technical and Humanitarian Opportunities for Service, Seattle, WA January 2016.
27. N. MacCarty, K.M. Bryden, "A Holistic Assessment of Village Energy," presented at the 2015 International Conference on Engineers in Technical and Humanitarian Opportunities for Service, Seattle, WA January 2015.
28. N. MacCarty, K.M. Bryden, "A Heat Transfer Model for Conceptual Design of Biomass Cookstoves," presented at the 2013 International Conference on Engineers in Technical and Humanitarian Opportunities for Service, Seattle, WA January 2013.
29. N. MacCarty, K.M. Bryden, "Computational Modeling of Biomass Stoves: A Literature Review," presented at the 2012 International Conference on Engineers in Technical and Humanitarian Opportunities for Service, Seattle, WA January 2012.
30. N. MacCarty, G. Lanza, K. Heising, "Regional Testing Centers," presented at the 2010 International Conference on Engineers in Technical and Humanitarian Opportunities for Service, Seattle, WA January 2010.
31. N. MacCarty, J. Cedar, "The Side-Feed Fan Stove," presented at the 2010 International Conference on Engineers in Technical and Humanitarian Opportunities for Service, Seattle, WA January 2010.
32. N. MacCarty, "Aprovecho Research This Year," presented at the 2008 International Conference on Engineers in Technical and Humanitarian Opportunities for Service, Seattle, WA January 2008.
33. N. MacCarty, "Results of Stove Testing for Global Warming Potential," presented at the 2007 International Conference on Engineers in Technical and Humanitarian Opportunities for Service, Seattle, WA January 2007.
34. D. Still and N. MacCarty, "Benchmark Testing Procedure and Results of Stove Testing," presented at the 2007 International Conference on Engineers in Technical and Humanitarian Opportunities for Service, Seattle, WA January 2007.
35. D. Andreatta and N. MacCarty, "The Effects of Carbon Monoxide and Particulate Matter on the Human Body," presented at the 2006 International Conference on Engineers in Technical and Humanitarian Opportunities for Service, Seattle, WA January 2006.
36. N. MacCarty, "Advanced Studies in Appropriate Technology Laboratory," presented at the 2006 International Conference on Engineers in Technical and Humanitarian Opportunities for Service, Seattle, WA January 2006.

Other Presentations

1. MacCarty, N. Ethical Humanitarian Engineering: Preventing White Saviorism in Service" Engineers Without Borders workshop. November 2021.
2. MacCarty, N., Nembhard, D., Parham-Mocello, J., and **Cassidy, L.** Innovating the first year in engineering: LEGO Mindstorms Robotics labs for MIME 101. Poster Presentation. Undergraduate Student Success Summit. March 5th, 2020. Oregon State University.

3. Walkin J., MacCarty N., Endress B., Sterns J. Faculty Leader Insights on the Transformative Effects of Study Abroad. Invited Panelist. Undergraduate Student Success Summit. March 5th, 2020. Oregon State University.
4. N. MacCarty. Invited talk. Humanitarian Engineering Innovation at Oregon State. Professional Engineers of Oregon monthly chapter meeting. Portland, Oregon, February 4th, 2020.
5. N. MacCarty, “Engineering for Global Good”, Keynote, OSU SWE Tea, Family weekend, May 2018.
6. N. MacCarty, “Designing Household Energy Systems for Developing Countries,” Invited Talk, Engineers Without Borders Student Chapter Meeting, Oregon State University, January 2016.
7. N. MacCarty, “Designing Household Energy Systems for Developing Countries,” Distinguished Speaker, ASHRAE Student Chapter Meeting, Oregon State University, November 2015.
8. N. MacCarty, “Engineering: A path with purpose,” Invited Talk, Program for Women and Minorities in Engineering Orientation, Oregon State University, September 2015.
9. N. MacCarty, “Designing Household Energy Systems for Developing Countries,” Invited Talk, Design Research Seminar, Oregon State University, November 2015
10. N. MacCarty, “Ethics for Village Energy,” NSF & National Institute for Ethics Energy and Society Seminar on Ethics in US Energy Supply, Arizona State University, April 2013.

WORKSHOPS/PANELS PRESENTED at INTERNATIONAL CONFERENCES and MEETINGS

1. MacCarty N., Invited talk. Reverse Innovation to Protect Health and Climate: Advances in Cleaner Biomass Combustion. University of Canterbury, Department of Civil Engineering, Christchurch, New Zealand. 2024.
2. MacCarty, N. Invited Talk. Advances in Biomass Cooking and Heating Using Forced Draft Combustion. International Cooperation Forum on Clean Cooking and Heating with Biomass. Beijing University of Chemical Technology, Beijing China. October 2023.
3. Still D and MacCarty N. Invited Talk. Protecting Health & Climate with Biomass Heating and Cooking Stoves. International Cooperation Forum on Clean Cooking and Heating with Biomass. Beijing University of Chemical Technology, Beijing China. October 2023.
4. MacCarty, N. Invited Talk, “Direct Fuel Consumption Monitoring” Better data, lower costs: can advances in field monitoring deliver? Session, Clean Cooking Alliance Forum, October 2022, Accra, Ghana
5. MacCarty, N. Invited Talk, “Advancing Innovative Impact Monitoring: the Fuel Usage Emissions Logger (FUEL)” Perspectives on Innovation: Measuring & Monetizing Impacts session at the Clean Cooking Alliance Forum, October 2022, Accra, Ghana
6. Invited talk, “Sensor-based impact monitoring with the FUEL sensors”, Clean Cooking Alliance Forum session on What’s Cooking: Opportunities for Innovative Growth Across the Sector panel. Nairobi, Kenya. November 5th-7th, 2019.
7. N. MacCarty, Invited Panelist, ASME IDETC Engineering for Global Development Lightning talk and panel, August 27, 2018, Quebec City, Quebec.
8. N. MacCarty, “Partnerships in International Development” Invited Panelist, Household Energy and Renewable Technology for Humanity (HEARTH) Conference, Cottage Grove, OR, August, 2017.

9. N. MacCarty, “Founders Panel” Invited Panelist, Stove Summit, Cottage Grove, OR, August, 2016.
10. N. MacCarty, “Moving up the biomass ladder and cleaner fuel pathways,” Invited Panelist, Engineers in Technical and Humanitarian Opportunities for Service (ETHOS), Seattle, WA January, 2016.
11. N. MacCarty, “Regional Testing Centers,” Invited Panelist, Engineers in Technical and Humanitarian Opportunities for Service (ETHOS), Seattle, WA January 2010.
12. N. MacCarty, “Design Principles for Wood Burning Cookstoves,” Partnership for Clean Indoor Air Forum, Kampala, Uganda, March, 2009.
13. N. MacCarty, “Stove Test Library,” Partnership for Clean Indoor Air Forum, Kampala, Uganda, March, 2009.
14. N. MacCarty, “The Water Boiling Test,” Partnership for Clean Indoor Air Forum, Kampala, Uganda, March, 2009.
15. N. MacCarty, “The Controlled Cooking Test,” Partnership for Clean Indoor Air Forum, Kampala, Uganda, March, 2009.

EXTENSION/OUTREACH ACTIVITIES

Technical Advisory Committee, Green Empowerment, 2017-present.

Technical editor and advisor to Aprovecho Research Center, 2012-present.

Advisory board member, Aprovecho Sustainability Education Center, 2018-2019.

Presentations to local organizations such as Rotary clubs and university students on design, testing, and modeling of biomass cookstoves for developing countries, 2005–2014.

PATENTS

1. MacCarty N, Ventrella J, Walter K. “Low power remote logging weight, air quality, and temperature sensor and method of use.” Provisional Patent, January 2018.
2. D.K. Hsu, D.J. Barnard, J.J. Peters, and N. (Hudelson) MacCarty, “Non-destructive inspections and the display of inspection results.” US Patent #6327921, December, 2001.

PROFESSIONAL ACTIVITIES

Professional Conference Leadership Activities

Board of Directors and Planning, Engineers in Technical and Humanitarian Opportunities of Service International Conference, 2014-present.

Symposium Chair, ASME International Design Engineering Technical Conference & Computers and Information in Engineering Conference (IDETC/CIE) -- Design Automation Conference – DAC-9, Design for the Developing World, 2019

Symposium Chair, ASME International Design Engineering Technical Conference & Computers and Information in Engineering Conference (IDETC/CIE) -- Design Automation Conference – DAC-9, Design for the Developing World, 2018

Symposium Chair, ASME International Design Engineering Technical Conference & Computers and Information in Engineering Conference (IDETC/CIE) -- Design Automation Conference – DAC-9, Design for the Developing World, Cincinnati, OH, 2017

Symposium Chair, ASME International Design Engineering Technical Conference & Computers and Information in Engineering Conference (IDETC/CIE) -- Design Automation Conference – DAC-9, Design for the Developing World, Charlotte, NC, 2016

HEARTH Stove Summit, August 2016-present. Planning.

Professional Journal Activities

Associate Editor, *Energy for Sustainable Development*, October 2015-present.

Professional Societies

Engineers in Technical and Humanitarian Opportunities of Service, Member 2000-Present; Board of Directors, 2014-present, Treasurer, 2015-present.

Society of Women Engineers, Member, 2015-present.

American Society of Mechanical Engineers (ASME), Member 2013-present.

Institute of Electrical and Electronics Engineers (IEEE), Member 2017-present.

ISO (International Organization for Standardization) Technical Committee TC/285 on Clean Cookstoves and Clean Cooking Solutions, Member, 2014-2018.

Review and Advisory Panels

Integrity Council for the Voluntary Carbon Market Working Group #5, 2024

Verra Sustainable Development Advisory Group, 2021-present

Technical Advisory Group, Green Empowerment, 2017-present

ANSI U.S. Technical Advisory Group to ISO/TC 285, Clean cookstoves and clean cooking solutions, Member, 2013-present.

Panelist, Partnership for Clean Indoor Air, Testing protocol and benchmarks for biomass cookstoves, 2005-2010.
