

Greetings COE Graduate Students,

The College of Engineering is conducting a [Student Pulse Survey](#) to better understand your experiences and ensure you have access to the resources that ensure your success. Please take a few moments to share your thoughts. I strongly encourage you to make use of this opportunity to provide us feedback on how things are going. You will come across a few questions that are tailored more to the undergraduate experience, however your responses will be evaluated separately, and if you need support, we will address that based on your feedback.

I am aware of the quantity of surveys you've been asked to complete this term, and I thank you for providing insightful information that allows us to effectively address your needs.

Sincerely,

Dorthe

Dorthe Wildenschild
