Environmental Engineering

Environmental Engineering is the engineering discipline that applies scientific and engineering principles to improve the natural environment, to provide healthy water, air, and land, and to remediate polluted sites. You will study the impact of engineering and chemical processes on the environment.

With an Environmental Engineering degree you may work in an interdisciplinary team in public agencies, consulting firms, construction firms, military or Peace Corps, etc. Common employment opportunities include wastewater collection and treatment, pollution in surface and ground water, and water supply and distribution.

Bachelor of Science Degree (BS) in the College of Engineering

- A minimum of 192 credits are required for graduation; 60 must be upper division (300 and 400-level courses).
- A maximum of 124 credits earned at a community college may be applied toward a bachelor’s degree at OSU.
- Some courses can count towards your major and the Baccalaureate Core. Advisors can assist in selection.
- OSU Catalog has a list of courses required for your major and option: catalog.oregonstate.edu

Courses for this Major offered at Chemeketa Community College

Important Notes & Resources

Important Notes for the College and Major:
• Grade of C or better are required in all major specific courses.
• See sample 4 year degree plan at https://cbee.oregonstate.edu/transfer-students
• Similar majors to explore: Biological and Chemical Engineering
• Environmental Engineering students, the best time to transfer is summer term, particularly due to the CBEE series courses. Talk with an OSU advisor about your specific timeline.
• CBEE 280 should be taken, after pre-requisites are met, the summer before starting upper division CBEE major coursework.

Resources and OSU Information:
• Students do not have to complete a transfer degree in order to transfer to OSU. However, if you’ve completed the Oregon AAOT, all requirements of the Baccalaureate Core are met except for Synthesis category and Writing Intensive Courses.
• Applying to OSU? See admissions info: oregonstate.edu/admissions/transfer.html
• Check out the Degree Partnership Program: partnerships.oregonstate.edu/students
• Visit OSU; schedule your visit at visitosu.oregonstate.edu/visit-campus

General Education Courses (called Baccalaureate Courses)

• Complete one course in each Perspectives category with no more than two in the same department.
• For full listing of courses that fulfill Baccalaureate Core, please refer to admissions.oregonstate.edu/baccalaureate-core-course-equivalencies-chemeketa-community-college

| SKILL COURSES | Math
| Writing I
| Writing II
| Speech (Writing III)
| Fitness
| Completed as part of major.
| WR 121. Required to transfer.
| WR 227
| COMM 111 or COMM 112
| HE 295

| PERSPECTIVE COURSES | Biological Science
| Physical Science
| Additional Biological or Physical Science
| Cultural Diversity
| Literature and the Arts
| Social Processes and Institutions
| Western Culture
| Completed as part of major.
| Completed as part of major.

| Many options, see BaccCore link above.

| DPD COURSES | Difference, Power, and Discrimination
| Many options, see BaccCore link above.

| SYNTHESIS COURSES | Contemporary Global Issues Science, Technology, and Society
| Upper division course, take through OSU.

Advancing Contacts

It is important to speak with your OSU academic advisor early on, and often, to ensure correct course selection and sequencing.

Academic advisors at your community college and OSU are available to answer your questions and assist you in creating a transfer plan. See your community college advisor first and use this Transfer Guide to help you plan. Also, consider visiting OSU to take a campus tour and meet with an advisor. See visitosu.oregonstate.edu/visit-campus to schedule your personalized visit.
